Comments:

The undersigned hereby certifies that the material and/or parts shipped on the subject order/contract conform to the requirements of the supplier purchase order/contract. Also, the material furnished is free from Mercury contamination. Mercury bearing instruments and equipment which might have caused mercury contamination was not used in manufacture, fabrication, and assembly or testing of any material furnished under this order/contract.

Parts have been produced, sampled, inspected, and tested in accordance with customer purchase order and/or referenced specifications and conform to all requirements unless otherwise specified.

Unless otherwise specified, specifications are to the latest revision. Test methods are in accordance with the latest revisions of NASM-1312 Fastener Test Methods if not specified by the customer. Any deviations to specification or customer purchase order requirements relative to testing have been resolved in writing with customers prior to shipment.

This certification relates only to the item(s) tested and shall not be reproduced except in full. The recording of false, fictitious, or fraudulent statements or entries on this certificate may be punishable as a felony under federal law.

Review and Signature by one (1) of the following Authorizes this certification.
