

**March 1, 2023**

Jergens Inc., Cleveland, Ohio USA, is pleased to celebrate the continued relationship with Barmil Ltd. as a distributor of all Jergens Tooling Component Division products. These include products from the Workholding Solutions Group, the Specialty Fasteners Group and the Lifting Solutions Group.

Jergens Workholding Solutions Group offers the most complete range of workholding products for horizontal, vertical and 5 axis machining centers, all designed to reduce set up time and improve productivity.

Jergens Specialty Fasteners Group offers products that include Kwik-Lok™ Pins, Spring Loaded Devices, Threaded Inserts, Hand wheels, Knobs, Handles, Toggle Clamps and various miscellaneous fasteners.

Jergens Lifting Solutions Group offers the most extensive range and styles of Hoist Rings as well as traditional Eyebolts.

Barmil Ltd. provides great market insight, sales support and technical knowledge. Together Jergens and Barmil Ltd. will provide customers with the most comprehensive products and support available. This memorandum of understanding is intended to carry through the end of the 2024 calendar year.

Sincerely,

Scott T. Halfhill  
International Product and Business Leader, Jergens Inc.
